

## CUSU COUNCIL ACCOUNTABILITY FORM

### YEAR OBJECTIVES

Your objective areas and aims should broadly reflect the commitments made in your manifesto. Where they differ, it will be good to explain to Council why your aims have changed.

<b>Objective area 1</b>  <b>Diversity</b>	<i>Specific aim 1</i>	Written a proposal for the creation of a targeted access scheme for Bangladeshi, Pakistani and Arab students, which includes a survey report. I have presented this to all the colleges and plan to put the paper forward to the Outreach Steering Group to ensure longevity of the programme with the Central Admission's Office. Have agreed with Queens' that they will host the Year 11 Residential Event. Looking for more colleges to collaborate with.
	<i>Specific aim 2</i>	Attended Diversity in STEM Gamechangers event in London to discuss ways in which to increase the diversity in STEM, through both raising aspiration and also making the work/place of study a more inclusive environment. My team was runner up and won a cash prize to help implement a mentoring scheme between scientists and pre GCSE students.
	<i>Specific aim 3</i>	Working with Generation Medics, an external organisation, to work with the university to increase diversity in Medicine and Natural Sciences (Biological) through various different programmes to be decided on by the university and colleges should they move forward.
<b>Objective area 2</b>  <b>Post-Offer Support</b>	<i>Specific aim 1</i>	Extensive work with Class Act, in an effort to raise awareness of the campaign amongst the student community, and create a more inclusive environment for those who identify in some form as working class.
	<i>Specific aim 2</i>	Have meet with the Careers Service team and discussed how to reduce the presence of unpaid internships. Most industries are not permitted to advertise these; however there are certain professions where this is not the case.
<b>Objective area 3</b>	<i>Specific aim 1</i>	Collaborating with InsideUni to help level the informational playing field for all students, this will be expanded and may potentially be a site for which to host the college comparisons.

<b>Other Work</b>	<i>Specific aim 2</i>	Sitting on various committees to evaluate the effect bursaries have on those in need of financial assistance and how this can be improved
	<i>Specific aim 3</i>	Shadowing Scheme: Organising rooms, speakers, recruiting mentors, recruiting applicants to apply for the scheme, ongoing communications with the colleges.
	<i>Specific aim 4</i>	Offering a student perspective on the OfS' agenda. Will look to writing a consultation response from CUSU.

## POLICY UPDATES

Here you should provide plans and updates for your work on CUSU policy

<b>Policy</b>	<b>Updates</b>
<i>Motion to promote a more accessible Cambridge for students in receipt of the full Cambridge Bursary</i>	See specific resolves of policy (2017/18) – These will be carried out.
<i>Motion to mandate CUSU to work with CRSC to lobby the University to create Scholarships</i>	This has been achieved in the form of the Rowan Williams Studentship award. Work will continue to be done to ensure that the application process is transparent as possible and to ensure that mentorship comes with the financial aid. I will be meeting with the Cambridge Trust again in Michaelmas term, as well as CRSC to further discuss this.
<i>Fight the use of unpaid internships</i>	As mentioned before, we have met with the Careers Service who were receptive to this, however the problem still exists nationally. I will be producing infographics in Michaelmas term to make information more easily accessible with regards to student rights. I will also be looking to work with national campaigns to lobby the government for legislative change in some form.
